

SOFT AGEING FOUNDATION

O/W foundation with a **light and silky** texture. It blends perfectly with skin, conferring a good coverage but keeping a natural effect on skin.

The presence of **Pea.Protein** also adds skincare benefits to this foundation, such as **immediate lifting** effect and anti-aging, elasticizing and hydrating properties.

Ingredients	Phase	%
Aqua	A	To 100
Sodium Polyacryloyldimethyl taurate		0.50
Tetrasodium Glutamate Diacetate		0.20
CI77891		8.00
CI77492		1.00
CI77491		0.50
CI77499		0.15
Supreme (Polyglyceryl-3 Rice Branate, Cetearyl Alcohol, Sucrose Stearate)	B	5.00
Cetearyl Alcohol		1.50
C13-15 Alkane		3.50
Isoamyl laurate		4.00
Diethylhexyl sebacate		4.00
Caprylic/Capric Triglyceride		2.00
Phenoxyethanol (and) Ethylhexylglycerin	C	1.00
Aqua	D	5.00
Pea.Protein (Hydrolyzed Pea Protein)		0.80

CHARACTERISTICS

Aspect:	Creamy emulsion
Color:	Beige
Odor:	Characteristic
pH:	5.5 – 6.5
Viscosity with Brookfield SP4 RPM 20	28.000-30.000 mPa·s

METHOD

Heat water at 70-75°C, then add the other components of the phase under fast stirring. Heat phase B at 70-75°C, then add B to A and mix until the emulsion takes form. Cool down under slow stirring, then add C and D and mix until it forms a homogenous system.
